Segment reporting

(Information on the business and geographical segments of the entity must be reported for the current period in accordance with *AASB 1005: Segment Reporting* and for half year reports, *AASB 1029: Interim Financial Reporting*. Because entities employ different structures a pro forma cannot be provided. Segment information in the layout employed in the entity's ⁺accounts should be reported separately and attached to this report.)

Comments by directors

(Comments on the following matters are required by ASX or, in relation to the half yearly report, by *AASB 1029: Interim Financial Reporting*. The comments do not take the place of the directors' report and statement (as required by the Corporations Act) and may be incorporated into the directors' report and statement. For both half yearly and preliminary final reports, if there are no comments in a section, state NIL. If there is insufficient space to comment, attach notes to this report.)

Basis of financial report preparation

19.1 *If this report is a half yearly report, it is a general purpose financial report prepared in accordance with the listing rules and AASB 1029: Interim Financial Reporting. It should be read in conjunction with the last ⁺annual report and any announcements to the market made by the entity during the period. The financial statements in this report are "condensed financial statements" as defined in AASB 1029: Interim Financial Reporting. This report does not include all the notes of the type normally included in an annual financial report. [Delete if preliminary final report.]*

⁺ See chapter 19 for defined terms.

- 19.2 Material factors affecting the revenues and expenses of the economic entity for the current period. In a half yearly report, provide explanatory comments about any seasonal or irregular factors affecting operations.

Compensation Settlement

Heritage reached agreement with the Crown regarding settlement of the Company's claim for compensation resulting from the enactment of the NZ Crown Minerals Amendment Act (No 2) 1997. Under the terms of settlement the Crown denies any liability to Heritage and made a payment of NZ\$220,000 to Heritage in full and final settlement of all claims.

- 19.3 A description of each event since the end of the current period which has had a material effect and which is not already reported elsewhere in this Appendix or in attachments, with financial effect quantified (if possible).

1. Rights Issue

Heritage issued a Prospectus on 19 September 2005 offering a pro-rata issue to existing shareholders on the basis of one new share and one option for every five shares held – up to a maximum of 23,500,000 new shares and options. The offer closed on 25 October 2005 and was fully subscribed. Shares and options were issued on 31 October and are listed on the ASX, NZX and NSX. NZ\$1,175,000 was raised before expenses.

2. Onemana

On 31 October 2005 the Directors carefully reviewed the anticipated results from investment in its exploration projects. A number of factors including funding requirements, payback, access to site, current and potential district plan restrictions and level of commitment required to meet permit conditions (together with the negotiability of those conditions) were also considered. The Directors concluded the Company's resources would be better focussed on the gold projects near Waihi.

The Onemana permit expires on 27 June 2007. The Company advised the Ministry on 1 November 2005 that it would be surrendering the permit on completion of the final report now being prepared for lodgement. Consistent with the Company's accounting policy capitalized expenditure of \$2,357,510 plus relinquishment expenses will be written off as at 31 October 2005. No provision has been made in these financial statements.

Notes

- For announcement to the market** The percentage changes referred to in this section are the percentage changes calculated by comparing the current period's figures with those for the previous corresponding period. Do not show percentage changes if the change is from profit to loss or loss to profit, but still show whether the change was up or down. If changes in accounting policies or procedures have had a material effect on reported figures, do not show either directional or percentage changes in profits. Explain the reason for the omissions in the note at the end of the announcement section. Entities are encouraged to attach notes or fuller explanations of any significant changes to any of the items in page 1. The area at the end of the announcement section can be used to provide a cross reference to any such attachment.
- True and fair view** If this report does not give a true and fair view of a matter (for example, because compliance with an Accounting Standard is required) the entity must attach a note providing additional information and explanations to give a true and fair view.
- Condensed consolidated statement of financial performance**

Item 1.1	The definition of "revenue" and an explanation of "ordinary activities" are set out in <i>AASB 1004: Revenue</i> , and <i>AASB 1018: Statement of Financial Performance</i> .
Item 1.6	This item refers to the total tax attributable to the amount shown in item 1.5. Tax includes income tax and capital gains tax (if any) but excludes taxes treated as expenses from ordinary activities (eg, fringe benefits tax).
- Income tax** If the amount provided for income tax in this report differs (or would differ but for compensatory items) by more than 15% from the amount of income tax *prima facie* payable on the profit before tax, the entity must explain in a note the major items responsible for the difference and their amounts. The rate of tax applicable to the franking amount per dividend should be inserted in the heading for the column "Franked amount per security at % tax" for items 15.4 to 15.7.

+ See chapter 19 for defined terms.

5. **Condensed consolidated statement of financial position**

Format The format of the consolidated statement of financial position should be followed as closely as possible. However, additional items may be added if greater clarity of exposition will be achieved, provided the disclosure still meets the requirements of *AASB 1029: Interim Financial Reporting*, and *AASB 1040: Statement of Financial Position*. Also, banking institutions, trusts and financial institutions may substitute a clear liquidity ranking for the Current/Non-Current classification.

Basis of revaluation If there has been a material revaluation of non-current assets (including investments) since the last ⁺annual report, the entity must describe the basis of revaluation adopted. The description must meet the requirements of *AASB 1010: Accounting for the Revaluation of Non-Current Assets*. If the entity has adopted a procedure of regular revaluation, the basis for which has been disclosed and has not changed, no additional disclosure is required.

6. **Condensed consolidated statement of cash flows** For definitions of “cash” and other terms used in this report see *AASB 1026: Statement of Cash Flows*. Entities should follow the form as closely as possible, but variations are permitted if the directors (in the case of a trust, the management company) believe that this presentation is inappropriate. However, the presentation adopted must meet the requirements of *AASB 1026*. ⁺Mining exploration entities may use the form of cash flow statement in Appendix 5B.

7. **Net tangible asset backing** Net tangible assets are determined by deducting from total tangible assets all claims on those assets ranking ahead of the ⁺ordinary securities (ie, all liabilities, preference shares, outside ⁺equity interests etc). ⁺Mining entities are *not* required to state a net tangible asset backing per ⁺ordinary security.

8. **Gain and loss of control over entities** The gain or loss must be disclosed if it has a material effect on the ⁺accounts. Details must include the contribution for each gain or loss that increased or decreased the entity’s consolidated profit (loss) from ordinary activities and extraordinary items after tax by more than 5% compared to the previous corresponding period.

9. **Rounding of figures** This report anticipates that the information required is given to the nearest \$1,000. If an entity reports exact figures, the \$A’000 headings must be amended. If an entity qualifies under ASIC Class Order 98/0100 dated 10 July 1998, it may report to the nearest million dollars, or to the nearest \$100,000, and the \$A’000 headings must be amended.

10. **Comparative figures** Comparative figures are to be presented in accordance with *AASB 1018* or *AASB 1029 Interim Financial Reporting* as appropriate and are the unadjusted figures from the latest annual or half year report as appropriate. However, if an adjustment has been made in accordance with an accounting standard or other reason or if there is a lack of comparability, a note explaining the position should be attached. For the statement of financial performance, *AASB 1029 Interim Financial Reporting* requires information on a year to date basis in addition to the current interim period. Normally an Appendix 4B to which *AASB 1029 Interim Financial Reporting* applies would be for the half year and consequently the information in the current period is also the year to date. If an Appendix 4B Half yearly version is produced for an additional interim period (eg because of a change of reporting period), the entity must provide the year to date information and comparatives required by *AASB 1029 Interim Financial Reporting*. This should be in the form of a multi-column version of the consolidated statement of financial performance as an attachment to the additional Appendix 4B.

11. **Additional information** An entity may disclose additional information about any matter, and must do so if the information is material to an understanding of the reports. The information may be an expansion of the material contained in this report, or contained in a note attached to the report. The requirement under the listing rules for an entity to complete this report does not prevent the entity issuing reports more frequently. Additional material lodged with the ⁺ASIC under the Corporations Act must also be given to ASX. For example, a director’s report and declaration, if lodged with the ⁺ASIC, must be given to ASX.

⁺ See chapter 19 for defined terms.

12. **Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if one exists) must be complied with.
13. **Corporations Act financial statements** This report may be able to be used by an entity required to comply with the Corporations Act as part of its half-year financial statements if prepared in accordance with Australian Accounting Standards.
14. **Issued and quoted securities** The issue price and amount paid up is not required in items 18.1 and 18.3 for fully paid securities.
15. **Details of expenses** *AASB 1018* requires disclosure of expenses from ordinary activities according to either their nature or function. For foreign entities, there are similar requirements in other accounting standards accepted by ASX. *AASB ED 105* clarifies that the disclosures required by *AASB 1018* must be either *all* according to nature or *all* according to function. Entities must disclose details of expenses using the layout (by nature or function) employed in their ⁺accounts.

The information in lines 1.23 to 1.27 may be provided in an attachment to Appendix 4B.

Relevant Items *AASB 1018* requires the separate disclosure of specific revenues and expenses which are not extraordinary but which are of a size, nature or incidence that disclosure is *relevant* in explaining the financial performance of the reporting entity. The term “relevance” is defined in *AASB 1018*. There is an equivalent requirement in *AASB 1029: Interim Financial Reporting*. For foreign entities, there are similar requirements in other accounting standards accepted by ASX.

16. **Dollars** If reporting is not in A\$, all references to \$A must be changed to the reporting currency. If reporting is not in thousands of dollars, all references to “000” must be changed to the reporting value.
17. **Discontinuing operations**
Half yearly report
All entities must provide the information required in paragraph 12 for half years beginning on or after 1 July 2001.

Preliminary final report
Entities must either provide a description of any significant activities or events relating to discontinuing operations equivalent to that required by paragraph 7.5 (g) of *AASB 1029: Interim Financial Reporting*, or, the details of discontinuing operations they are required to disclose in their ⁺accounts in accordance with *AASB 1042 Discontinuing Operations*.

In any case the information may be provided as an attachment to this Appendix 4B.

18. **Format**

This form is a Word document but an entity can re-format the document into Excel or similar applications for submission to the Companies Announcements Office in ASX.

⁺ See chapter 19 for defined terms.
